**Tools & Platforms:** Shopify, Figma, Web Content Management Systems

## Work Experience

---

### MindHome, West Sacramento, CA

#### Web Developer

08/2024 - Present

- Redesign and update 25% of company website content using HTML5, CSS3, and JavaScript, improving site navigation and user experience
- Optimize images across 10+ product pages, reducing file sizes and improving page load performance
- Resolve cross-browser compatibility issues affecting layout and functionality across Chrome, Firefox, Safari, and Edge
- Implement responsive design patterns for mobile, tablet, and desktop viewports, increasing mobile traffic engagement
- Collaborate with senior leadership on feature planning and development priorities

#### Web Development Intern

05/2023 - 08/2024

- Developed 10+ reusable web components aligned with design system and brand guidelines
- Translated Figma mockups into production-ready, accessible HTML/CSS/JavaScript code
- Gained hands-on experience with Shopify e-commerce platform and content management workflows
- Participated in code reviews and adopted team development standards

## Projects

---

### Dog Breed Reference Site | Next.js, TypeScript, Tailwind CSS | [github.com/gabholli/dog-site-v3](https://github.com/gabholli/dog-site-v3)

- Built comprehensive dog breed information site featuring 172 individual breed pages with detailed characteristics and care information
- Implemented client-side pagination and filtering to handle large datasets efficiently
- Designed responsive data tables with Tailwind utility classes for optimal mobile and desktop viewing
- **Live demo:** [\[https://dog-information.netlify.app\]](https://dog-information.netlify.app)

### Recipe Discovery App | React, React Router 7, External API | [github.com/gabholli/recipe-site](https://github.com/gabholli/recipe-site)

- Created single-page application with search functionality and dynamic routing for recipe browsing
- Integrated third-party API for meal data retrieval with error handling and loading states
- Built random recipe generator feature to enhance user discovery and engagement
- **Live demo:** [\[https://gabholli-recipe-site.netlify.app\]](https://gabholli-recipe-site.netlify.app)

## Education

---

### Western Governors University

07/2022

Bachelor of Science in Software Development

### San Antonio College

05/2012

Associate of Arts in Liberal Arts
